# China Hi-Tech Fair 2018

November 14-18 2018, Shenzhen Convention and Exhibition Center

20 Years of Dedication to High Tech  
A Bridge between the World and Your Innovation

**Join a new start.**

**Join the CHTF 2018.** (November, 2018)

For more updates on the CHTF 2018, you may visit our official website [www.chtf.com](http://www.chtf.com).

Organized by Shenzhen China High Tech Transaction Center  
Address: Shenzhen Convention and Exhibition Center, Fuhua San Rd.,  
Futian District, Shenzhen, 518048, P.R.China  
Tel: 0755-8284 9990, 8284 9991  
Fax: 0755-8284 8799

1999-2018 **20**<sup>th</sup>

# 1999-2018 *CHTF 20 Years in Growth* *Technology, Industry and Innovation Bellwether*

**CHTF 1999** October 5 to 10, 1999  
Milestone of the High Tech industry in China

**CHTF 2000** October 12 to 17, 2002  
Expand and explore

**CHTF 2001** October 12 to 17, 2001  
Stronger presence of professional players

**CHTF 2002** October 12 to 17, 2002  
1st Fair in China with presence of all major international securities exchanges

**CHTF 2003** October 12 to 17, 2003  
Be Friendly, Be Professional

**CHTF 2004** October 12 to 17, 2004  
Rising International Engagement

**CHTF 2005** October 12 to 17, 2005  
Self Innovation

**CHTF 2006** October 12 to 17, 2006  
Self Innovation, Recycled Economy & IPR Protection

**CHTF 2007** October 12 to 17, 2007  
Opening-up, innovation, IPR Protection and a Harmonious Society

**CHTF 2008** October 12 to 17, 2008  
Technology for Better Life and Innovation in Shaping the World

**CHTF 2009** November 16 to 21, 2009  
Innovation, Start-up and Development

**CHTF 2010** November 16 to 21, 2010  
Tech-led Transformation and Innovation Driven Development

**CHTF 2011** November 16 to 21, 2011  
Cooperation in International Innovation and Change in Growth Pattern

**CHTF 2012** November 16 to 21, 2012  
Innovation in Technology and a Quality Development

**CHTF 2013** November 16 to 21, 2013  
Innovation Driven Development and Quality of Economic Growth

**CHTF 2014** November 16 to 21, 2014  
Innovation Driven Green Development

**CHTF 2015** November 16 to 21, 2015  
Innovative Entrepreneurship and Cross-border Integration

**CHTF 2016** November 16 to 21, 2016  
Innovation Driven, Quality Oriented

**CHTF 2017** November 16 to 21  
Innovation Driven Development and Supply Quality Upgrade

## *China's No. 1 Technology Event*

Year 2018 will witness the 20th year of the China Hi-Tech Fair (CHTF) in Shenzhen. With a fast growth over the past 19 years, the CHTF is the largest of its kind in China in terms of both scale and influence. It is jointly hosted by China's Ministry of Commerce, Ministry of Science and Technology, Ministry of Industry and Information Technology, National Development and Reform Commission, Ministry of Agriculture and Rural Affairs, State Intellectual Property Office, Chinese Academy of Sciences, Chinese Academy of Engineering and Shenzhen Municipal People's Government. It is also deemed the No.

1 Technology Event in China. In the coming CHTF, to be convened this November in Shenzhen Convention and Exhibition Center and other relevant venues, one can anticipate an even more rewarding experience as this fair will celebrate its 20th anniversary and present a fascinating program packed with exhibitions, shows, forums, seminars, training for project investment, project roadshow, business match-making events, overseas procurement meetings, award presentation, meetings of start-ups and makers, and the launch of new products.

## State-level Endorsement

◆ Mr Zhu Rongji, the then Premier at the opening of the CHTF 1999

办好高交会，推进高新技术产业化，  
对于自主创新、调整经济结构、转变发展  
方式具有重要意义。

温家宝 题词

◆ Congratulations by Mr Wen Jiabao, the then Premier to the CHTF 2008

◆ Mr Wang Yang, the then Vice Premier at the opening of the CHTF 2013

◆ Mme Liu Yandong, the then Vice Premier at the opening of CHTF 2014

◆ Mr Hu Chunhua, the then Party Secretary of CPC Guangdong Committee, at the opening of CHTF 2016

◆ Mr Li Xi, Member of the Political Bureau of CPC Central Committee (also Party Secretary of the CPC Guangdong Committee) and Mr Wan Gang, Minister of Science and Technology (also Vice President of the CPPCC) at the opening of CHTF 2017

Thanks to the endorsement from the national government and the provincial administration, previous presence of state leaders include Mr Zhu Rongji, Mr Wu Bangguo, Mme Wu Yi, Mr Zeng Peiyan, Mr Hui Liangyu, Mr Wang Yang, Mme Liu Yandong and chairpersons of the People's Congress and the CPPCC. Mr Hu Chunhua and Mr Li Changchun, former Party Secretaries of CPC Guangdong Committee visited the CHTF respectively.

## Star-lit Forum

The China Hi-Tech Forum is highly acclaimed because of the high profile speakers and their indisputable authority in relative sectors. Among the constellation of the Forum's key note speakers, there are the nation's state leaders like Mr Zeng Peiyan, the then Vice Premier and Mr. Zhou Guangzhao, the then Vice Chair of the Standing Committee of the Chinese People's Congress and other big names. 14 Nobel Laureates, over 100 ministers from the Chinese administration or other countries, 400 more executives, entrepreneurs and celebrities in respective areas came and presented the view and vision of the world's greatest minds in science, technology and financing. The Forum is now a major access to cutting edge technology and investment opportunities for the international cooperation in technology and economy.

◆ This presents China's cream of the cream and it speaks for the future of China. As I see it, the high tech in China is changing with every passing day. Remarks by Mr John Leslie Prescott, former Deputy Prime Minister of the UK

◆ The CHTF in Hungary may serve as a quick pass to the European market for companies in Shenzhen and China at large. Remarks by Mr Gyurcsany Ferenc, former Prime Minister of Hungary at the opening of the CHTF in Hungary

◆ Innovation is the prime driving force behind the economic and social development. Innovation in science and technology is at the core of this driving force, primarily fueled by innovative minds. Self innovation, design and creativity jointly propel innovation in technology and industries. Innovative nations take lead in the world as innovative enterprises do in respective sectors. Remarks by Prof. Lu Yongxiang, academican of the Chinese Academy of Sciences, and of the Chinese Academy of Engineering at the Forum

◆ A pleasure to visit Shenzhen and attend the China Hi-Tech Forum 2014. We are aware of the importance of Shenzhen in China's financial innovation and also it is a metropolitan of immense significance. Remarks by Mr Manuel Sanchez, Vice President of the Mexican Central Bank at the Forum

◆ A pleasure to attend the CHTF 2016 and speak at the China Hi-Tech Forum. We have an interest in furthering the cooperation with partners in China. Our joining hands in developing 5G and other future technology in the mobile internet sector will be supportive to China's internet plus strategy. Remarks by Mr Derek Aberle, the then CEO of Qualcomm at the Forum

◆ China is the most promising country in the 21st century. The 19th century was the century of Britain and the 20th century belonged to the United States, while the 21st century will be a century of China, which is changing the world and will continue to do so. Remarks by Mr Jim Rogers, renowned Wall Street investor

◆ Our first appearance in the CHTF 1999 enabled us to access the capital market and for the first time capture the interests from finance, which lay the very foundation for Tencent's incessant rise. Remarks by Mr Ma Huateng, Chair of the Board, Tencent

## Global Appeal

- ◆ The CHTF is the largest of its kind in China in terms of scale and influence and is deemed to be the No. 1 Technology Event in China with a growing appeal to the international high-tech industry.
- ◆ The administrative endorsement to the CHTF rests in both national and local levels. The Fair is a collaborative work of the Ministries and the Shenzhen municipality. State leaders came each year with supportive messages from the central government. Ministries and institutions actively engage in the Fair and host respective pavilions or exhibitions as the provinces and universities join each year with large scale exhibitor groups.
- ◆ The CHTF brings rewarding experiences for participants. International business leaders like Microsoft, IBM, Sony, Qualcomm, Samsung, Sharp, Siemens, Toshiba, Oracle, LG, Hitachi, Panasonic are veteran exhibitors to the CHTF. Competitive private companies in China, like Tencent and CoShip Electronics grow with the CHTF and gained their first access into the international market.
- ◆ The CHTF captures interests from both global and local media. In each session, an average of 1,500 journalists from nearly 200 press agencies and online media has been documented.
- ◆ The CHTF is grateful of the support from its loyal professional visitors and each year, the CHTF receives an average of 500,000 visits from 100 countries for the past 19 years.

Media Coverage (including but not limited to)

## Why the CHTF

- ◆ The CHTF helps holders of IPR and technologies to identify with potential partners from enterprises, intermediate agencies and thousands of investors with huge interests in high-tech products at home and abroad.
- ◆ On average, over 10,000 quality high-tech projects are on display in the CHTF each year, which means huge opportunities for investment in IPR, technology and projects to international investors.
- ◆ The CHTF attracts interest from governments and SOEs at both national and local levels with large procurement orders and provides international producers and manufacturers with a quick pass to the Chinese market.
- ◆ The CHTF is proved to be a fantastic one stop shopping experience to professional buyers with the huge variety and high quality of technology products at home and abroad.
- ◆ The CHTF is a magnetic platform of innovation and start-up businesses. The project road show, meetings with capitals and exchanges of experience and technologies are open to all sorts of start-ups.
- ◆ The high level launch and releasing, meetings and receptions hosted by institutions of authority in respective areas provide participants with unique access to knowledge and opportunities.

Exhibitors (including but not limited to)

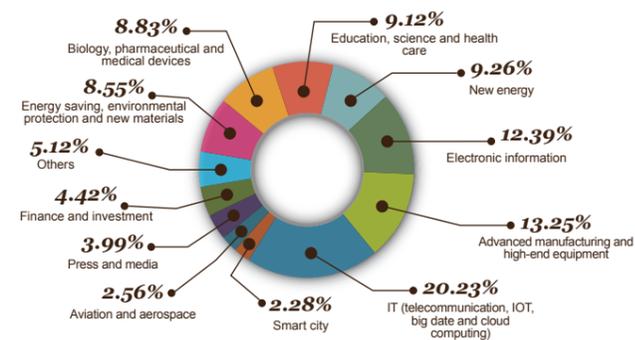

## Highlights

49 exhibitor groups from 46 countries and from the EU member countries took part in the CHTF 2017. Domestically, Hong Kong, Macau, Taiwan and other 35 provinces and municipalities sent their exhibitor groups. Groups from 27 universities, colleges and another 3,049 individual exhibitors also attended the Fair, which extended to an exhibition area of 120,000 square meters. 10,020 high tech projects were recorded on display. They represented the latest progress achieved by scientists and technical teams in the net of things, intelligent manufacturing, artificial intelligence, energy saving and environmental protection, AR/ VR, internet plus, big data, unmanned system, smart city, aeronautics and astronautics, new energy, new materials, optoelectronic FPD and modern agriculture, etc.

The event generated 592,000 visits from 102 countries and regions, with the index of professional interests of 242, meaning an estimated daily average of 242 professional visits to every single booth. Over 1,704 new products and 539 new technologies made their debut at the forum and a total of 63 enterprises staged specific launching events for their new products. More than 1500 journalists from 250 domestic and overseas media reported on the events.

Visitors Professional Background

## The National High Tech Exhibition and other general exhibitions

The CHTF is loyal to its professional commitment to exhibitors and attendees, with better services and increasing engagement with leading figures in forefront sectors like information technology, new energy, new materials, energy conservation, environmental protection, biology, high-end equipment manufacturing, and aerospace. Highlights of the Fair will also include artificial intelligence, intelligent manufacturing, smart home, the fifth generation mobile communication technology, big data, Internet of things, smart car, cloud computing, health and sports, 3D printing and materials, green building, water treatment and purification, energy storage, graphene, and military civilian integration.

### ◆ The National High Tech Exhibition

It is a comprehensive state level display of high tech products mainly by ministries and institutions at the state level. It is widely recognized as a state-level dedication to specific areas with trend-setting missions. It focuses on priorities on the ministries' agenda, state projects, emerging industries with strategic importance to the nation, high level integration between industrialization and information technology, structural reform on the supply side and key sectors relevant to green development.

Contacts: +86-755-82848887, 82848785  
E-mail: tangying@chtf.com、yaolei@chtf.com

### ◆ Innovation and Research Exhibition

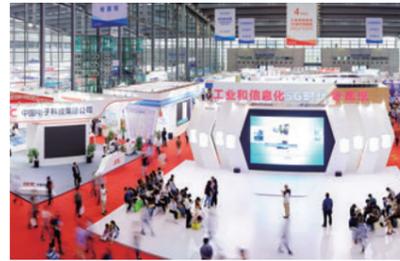

It is a joint work staged by Hong Kong, Macau, Taiwan and other provinces, universities, research institutes, innovation center and other incubators. It unveils high-tech products on specific themes and the exhibitors are from a range of sectors, namely, emerging industry of strategic importance, key technology, future industry and their key achievements at the forefront. It is deemed a supreme platform for new products and technologies to enter the market for further industrialization.

The sections hosted by provinces and cities will highlight achievements in high-end manufacturing, new materials, new generation technology, bio-science, green and low carbon technology, digital creativity.

Contacts: +86-755-82848892, 82848961  
E-mail: dongsz@chtf.com、wangjd@chtf.com

The universities, research institutes and innovation centers will focus on displaying their cooperation with the enterprises' R&D teams and research findings in emerging industry of strategic importance, basic research and industrial integration.

Contacts: +86-755-82848785, 82848887  
E-mail: yaolei@chtf.com、tangying@chtf.com

### • International and Belt & Road Pavilion

It is dedicated to the display of advanced technologies presented by foreign exhibitors and those from the B&R countries, with a view to exploring investment opportunities in the B&R countries in a context of stronger global economic cooperation.

Contacts: +86-755-82848652, 82848650, 82848695  
E-mail: selenaxie@chtf.com、hecs@chtf.com、yangd@chtf.com

### • Start-up Exhibition

This magnetic platform is generating growing interests from innovative start-up enterprises with cutting-edge technologies and products, as it offers free access to the networking with potential investors in high-tech sector and provides an all-round service to the young companies.

Contacts: +86-755-82848884, 82848889  
E-mail: zzpin@chtf.com

### • High Tech Services Pavilion

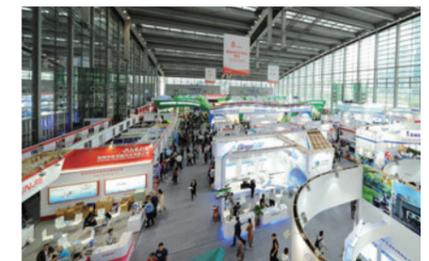

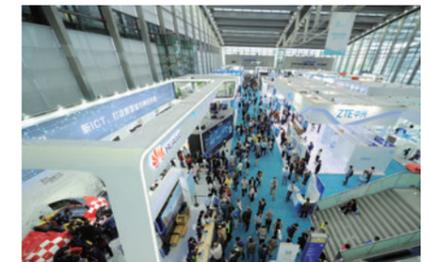

It aims to provide comprehensive support and services to the transaction of technology and innovation. Exhibitors include investors, financial agencies, technology transaction agencies and other intermediate institutions.

Contacts: +86-755-82848884, 82848889  
E-mail: zzpin@chtf.com、grjs123@126.com

### • Makers Exhibition

It is open to makers, independent technical teams, college students, individual inventors for them to display their ideas, innovation and creative projects. Leading makers workshops will also be invited. It aims to create a free and open cooperative environment for the innovators. It will also introduce cross-border exchanges so as to bring brilliant ideas into fascinating products.

Contacts: +86-755-86533594, 82848889  
E-mail: maker@makercas.com、grjs123@126.com

## Specialized Exhibitions (CHTF 2018)

In the coming CHTF 2018, specialized exhibitions can be found in the following sectors: information technology and products, energy saving and environmental protection, new energy, green buildings, new materials, advanced manufacturing, smart city, smart medical and health, optoelectronic display, aviation and space, military and civilian integration, sensor technology and application.

### ● IT Exhibition

It is China's largest professional trade fair in the import and export of information technology and products. In the coming 2018, it will present cutting edge technologies primarily in artificial intelligence, intelligent manufacturing, smart home, smart car, IT movement, virtual reality, augmented reality, hybrid reality, the fifth generation mobile communication technology, big data, cloud computing, internet of things, internet plus, 3D printing and materials.  
Contacts: +86-755-82848869, 82848851, 82848862, 82848852  
E-mail: ljk@chtf.com、hm@chtf.com、fang@chtf.com、kong@chtf.com

### ● Energy Saving and Environmental Protection Exhibition

It will focus on latest technologies and solutions related to water treatment, waste treatment, air purification, power saving and other issues of environmental protection and preservation.  
Contact: +86-755-82848853, 82848856, 82848857  
E-mail: zhangmiaomiao@chtf.com、wl@chtf.com、sjx@chtf.com

### ● New Energy Exhibition

It will unveil the latest technologies and models in solar energy, nuclear energy, energy storage, new energy concept cars, charging stations and power batteries, as a guide to the industry's future.  
Contact: +86-755-82848853, 82848856, 82848857  
E-mail: zhangmiaomiao@chtf.com、wl@chtf.com、sjx@chtf.com

### ● Green Buildings Exhibition

It is a must-go show for visitors interested in green building materials, green construction, prefabricated building technology, building information mode (BIM), green building planning and design, property operation and management, intelligence control system, ecological gardens, renewable resources utilization.  
Contact: +86-755-82848853, 82848856, 82848857  
E-mail: zhangmiaomiao@chtf.com、wl@chtf.com、sjx@chtf.com

### ● New Material Exhibition

It presents the latest advance in the new material sector, i.e. graphene, electronic information material, 3D printing material, high performance composite material, and nano materials.  
Contact: +86-755-82848857, 82848856, 82848853  
E-mail: sjx@chtf.com、wl@chtf.com、zhangmiaomiao@chtf.com

### ● Advanced Manufacturing Exhibition

It is in line with the national strategy of being a strong manufacturing power and addresses exactly key sectors pinpointed in the country's "made in China 2025" Plan, which includes intelligent equipment, intelligent factories, industrial robots, flexible manufacturing, customization in industrial manufacturing, and information fusion, laser products and laser systems.  
Contact: +86-755-82848961  
E-mail: 1114507435@qq.com

### ● Smart City Exhibition

The Intelligent City Technology (ICT) intertwines a wide range of technologies with one another, namely urban planning and management, communications and information, applications in cloud computing and big data, internet of things, AI, intelligent hardware and mobile applications. It is a comprehensive display of the application of the net of things, big data, cloud computing, artificial Intelligence and 5G Network in the building of the new smart city. Research findings and success stories in building the smart city will be shared. It also elaborates on the concept of AI+ intelligent City and may tailor an all round service to practitioners in the industry.  
Contact: +86-755-23996193, 83663892  
E-mail: Yolanda\_Chi@idg.com.cn, Karvin\_Wen@idg.com.cn

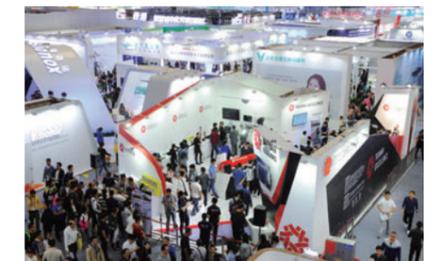

### ● Smart Medical and Health Exhibition

It includes all levels of the whole industrial chain and presents latest technology, products and services in: medical big data, medical robots, AI+ medical health, internet medication, medical devices, medical imaging, in vitro diagnosis, pharmaceutical e-commerce, smart medical wearable devices, third party medical services, health management and smart nursing home.  
Contact: +86-755-88315633  
E-mail: Joney.He@ubm.com

### ● Optoelectronic Display Exhibition

It ranks high among its peers in the nation's optoelectronic display industry. With a coverage of both upstream and downstream of the industrial chain, it presents advanced technology and products, including the cutting-edge LCD panel modules, organic light-emitting diode display (OLED), quantum dot display (QLED), micro-led display, large screen laser projection display technology and it is dedicated to innovation and progress in display technology at home and abroad.  
Contact: +86-755-86149990, 86149086  
E-mail: lidianfei@chinafpd.net

- **Aviation and Aerospace Exhibition**

It will shed light on latest development in commercial aerospace, applications of Beidou system, aerospace precision manufacturing and equipment, UAV systems, general aviation services and devices.

Contact: +86-755-25831502, 25832962

E-mail: ygd@szaia.org, ygj@szaia.org

- **Military and Civilian Integration Exhibition**

It will focus on demonstrating the new achievements and products in the MCI sector. Exhibits range from network security, smart wear, composite new materials, to security devices, satellite communications, drones, three-proofing products as well as dual-use products.

Contact: +86-17098982013, +86-755-36607891

E-mail: 1974627512@qq.com

- **Sensor Technology and Net of Things Exhibition**

Inspired by the scheme of Smart Manufacturing in Shenzhen, this exhibition will present visitors with a perspective on the latest progress of the industry from a vertical level, namely on the application of sensor technology in communication, cloud platform, big data and on other relevant solutions.

Contact: +86-755-26059696, 82848891

E-mail: 25194480@qq.com, 353986040@qq.com

## Sideline Events

- **China Tech Talent Fair**

It constitutes a platform for the high-end talents, pillared by the three major events, i.e. the Talents and Technology Meeting, HR Service Exposition and the CHTF Talent Forum.

Contact: +86-755-82122054

E-mail: zhaopinsz@126.com

## Forums

### ◆ China Hi-Tech Forum

In line with the theme of the CHTF 2018, the China High Tech Forum will continue to invite high-level officials, scientists and economists of authority in respective sectors, senior executives and entrepreneurs from leading technology companies to speak on the progress and future of science and on the role of international cooperation..

### ◆ High level forums hosted by the ministries

These include professional high level forums and events staged by relative state authorities.

### ◆ Release from the state level

They can be releases or publicity events on the nation's new policy, standards or breakthroughs in relation to science and technology.

## Professional Meetings

### ◆ technology conferences

These are conferences hosted by organizers of specific pavilions, universities and institutions, industrial associations and technology federations, as well as leading enterprises, with a focus on AI, aviation and aerospace, new energy, new material or bio-technology respectively.

### ◆ theme salon and events

The CHTF will invite companies, trade association and professional agencies to host a variety of salons tailored to specific themes of the 2018 Fair.

### ◆ Launch of new products and technologies

The CHTF encourages exhibitors, guest speakers, enterprises and agencies to launch new products, technologies and standards in collaboration within the framework of the 6 days exhibition.

## Other Activities

### ◆ project financing training

It is a sharing of inspiring experiences in successful financing, combined with presentations by venture capitalists (on business models, selection of projects and teams) and case studies. It also opens to the consultation and training requests from start-ups interested in financing, with a view to improving the financing capabilities of the start-up companies.

### ◆ project financing roadshows

These roadshows are catered to the needs of start-ups with interests in further financing. They are open to also projects with promising prospect that fall into the nation's industrial priorities and are mature enough for industrialization. They help to build up sufficient direct business dialogues between the high-tech companies and quality investors.

### ◆ project match-making meeting

One-to-one meetings are orchestrated between high quality projects and potential investors based on individual terms and interests. Free value added services include financing options, business model review, internet marketing and team building suggestions.

### ◆ overseas procurement meetings

Meetings are arranged on the one to one basis with a precise evaluation on the interests from the international buyers and the CHTF exhibitors

### ◆ functions by exhibitor groups from provinces and cities

These events are staged by the exhibitor groups from specific provinces and cities with a well packed program on investment priorities, policy presentation, project launch and job vacancies for high tech talents.

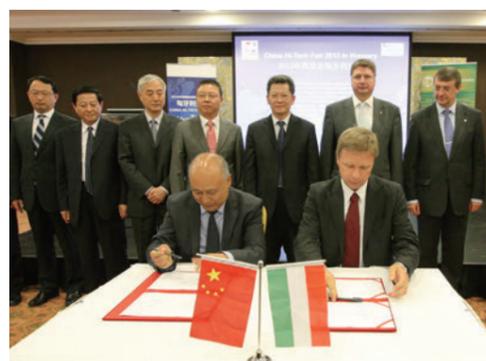

### ◆ high tech maker gatherings

A variety of events and gatherings will be staged over the 6 days exhibition to better engage international high tech makers, teams and the maker space in the fair.

### ◆ experience areas

Experience areas are set up in particular pavilions of the highest public interests, where visitors may have a fantastic personal experience of interaction with the cutting edge high tech.

#### ◆ On-line Events

Technology transaction services are available all year round: project search, tech review, financing consultancy, on-line promotion of key projects and business match-making.

Contact: +86-755-82848892, 82848884

On-line Exhibition: The on-line exhibition is a no-curtain-fall exhibition thanks to the internet as on-line meetings, display, business negotiation and match making can happen anytime throughout the year.

#### ◆ Overseas Session of China Hi-Tech Fair

The overseas sessions are substantial measures taken by the CHTF in its International progress and are the most significant branding events orchestrated by the CHTF in other countries. Since 2005, overseas sessions of the CHTF have been staged in Britain, Russia, Germany, Finland, Belgium, Hungary, Bahrain, Estonia, Lithuania and Israel. It is in accordance with China's Go Global strategy, which encourage a growing exposure of Chinese companies in the international economy and cooperation with other countries in science and technologies. The overseas exhibitions consist of an opening forum, business match-making events, high-level meetings with local administrations, dialogues between entrepreneurs, visits and meetings with local leading companies, universities, industrial park, and R&D institutions. The themes of these exhibitions range from information technology, energy saving and environmental protection, to bio-pharmacy, smart city, risk investment, and finance and trade. These exhibitions deliver results as a score of international cooperation projects have come to inauguration. The overseas exhibitions are now a significant channel for foreign companies to increase the accessibility of the Chinese market and for their Chinese counterparts vice versa.

Contact: +86-755-82848652, 82848695

### Visit Application

#### ◆ Subscribed Professional Visitors

One may log onto the official website and we-chat account of the CHTF and apply for professional visits. Application, once validated by the organizing committee, is granted with free entry. For entry information, please visit [www.chtf.com](http://www.chtf.com).

Contact: +86-755-82849990、82849991

#### ◆ Scheme for Invited Group Visitors

We welcome requests for group visits from high-tech trade associations, business chambers and societies. The minimum participation shall be no less than 10 enterprises or institutions (not Shenzhen based). All group members must submit information as requested and are entitled to the following services once his or her application is validated by the organizing committee.

1. A group visit pass with multiple entries
2. A comprehensive package of information on the CHTF exhibitors and exhibits.
3. The organizer is entitled to invitation to the opening ceremony and other key events, subject to the Confirmation Note issued by the organizing committee.

Contact: +86-755-82848885

Application forms may be found on [www.chtf.com](http://www.chtf.com)

#### ◆ Individual Visitors

Tickets are requested and for details, kindly follow updates on the CHTF.

Contact: +86-755-82848883
